

Response by Derek Collett on behalf of ChOC

Response type: OBJECT

It's very disappointing to see no mention of ChOC anywhere in the plan. Many cultural activities and facilities are mentioned but not Charlbury's Own Cinema, which has been in existence for almost 15 years and shown about 150 films, mostly to large and appreciative audiences of local residents, during that time. Some of us who give up a lot of our time to put on the regular film shows feel a bit miffed by this omission! ChOC is provided as a service to the local community and we feel that due recognition should be made of this fact.

Thanks.mmary: No mention of ChOC (Charlbury's Own Cinema)
